

Oakbank School requires all students from Year 7-12 to have a laptop computer each day at school to access the curriculum. To support eligible students with access to relevant technologies and to enable participation in the best teaching and learning practices Oakbank provides access to qualifying students with long and short-term loan devices for a nominal fee.

We also encourage parents and carers to visit our recommended supplier, LWT, who offer payment plans for laptops which may make purchasing a laptop an affordable option for many families.
