

Daymap Students Quick Guide

oakbank.daymap.net/daymap

Daymap is our Student Management and Classwork website for secondary school students and select primary years. It contains your timetable, class resources, tasks and messaging to teachers.

Parents have access to a separate **Daymap Companion** website (oakbank.daymap.net/portal) and app (**Daymap Companion**). There is no separate app for student and staff access.

Accessing Daymap

Daymap is accessible from both school and home and is authenticated using **EdPass**.

Visit

oakbank.daymap.net/daymap.

Sign in

When you see the EdPass logo, select **Oakbank School** as your site (if prompted) and continue. Enter your **curriculum login** and then **password** to sign in.

Your **curriculum username** (depending on when you started at Oakbank), is either:

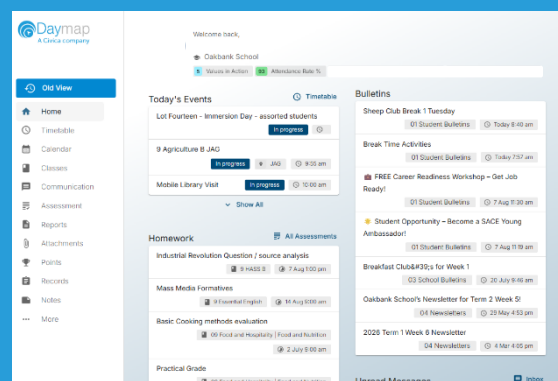

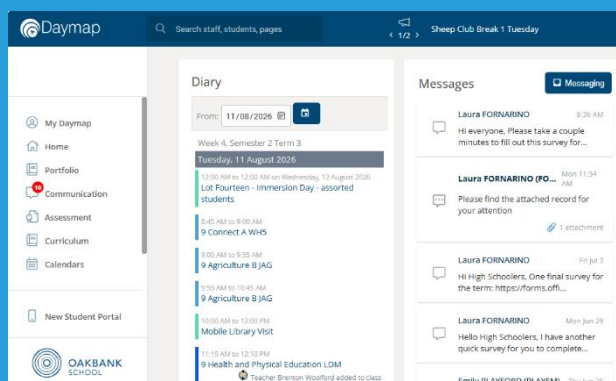

- a number (eg. **230231**) or
- **Firstname.Lastname** (eg. **Bill.Potts**)

Navigating Daymap

Daymap has two views:
Old View or original

New Student Portal

You can swap between views on the right hand column at the top or bottom – both contain the same information but in a different order – we encourage students to swap to the new student portal as it presents bulletins and other information in a clearer manner.

See our **Student Daymap guide** for a more detailed information about accessing your timetable, classes and navigation. This will be updated to include the **New Student Portal** soon.
